

Table 46-1  
 QUESTION 9:  
 As you may know, Medicaid is a taxpayer-funded program that provides healthcare coverage to low-income people. Do you support or oppose expanding the state's Medicaid program to cover more people in North Carolina?

Table 47-1  
 QUESTION 10:  
 As you may know, North Carolina has Certificate of Needs laws that require hospitals and other health care providers to obtain permission from the state in order to open or expand many new health care and medical services.

Which of the following comes closer to your own opinion, even if neither is exactly right:

Certificate of Need laws make sense because they allow state government to control and determine the availability of health care services in each community.

...Or...

Certificate of Need laws do not make sense because they add an unneeded layer of bureaucracy that prevents or delays doctors from opening health care facilities in communities that need them.
